

Free Sample

Complete relational structure at reduced scale — healthcare

ILLUSTRATIVE SAMPLE ONLY — THIS IS NOT THE ACTUAL COMMERCIAL DELIVERABLE. This document shows only the structure and style of the data. Volume and level of detail are intentionally reduced compared to the commercial tiers (100K, 2.5M, 5M, 10M Vital_Signs rows).

Tables Included

TABLE	ROWS	DESCRIPTION
Facility.csv	1	Healthcare facilities (reference, capped).
Department.csv	6	Clinical departments per facility (reference, capped).
Provider.csv	36	Practitioners (reference, capped).
Payer_Plan.csv	5	Insurance/payer plans (reference, capped).
Drug_Reference.csv	15	Drug reference data (reference, capped).
Lab_Test_Reference.csv	11	Lab test reference data (reference, capped).
Patient.csv	18	One record per simulated patient, with age-correlated comorbidities.
Encounter.csv	18	Encounters/stays (pivot table linking patients, providers, diagnoses...).
Diagnosis.csv	35	ICD-10 coded diagnoses linked to an encounter.
Procedure.csv	17	Medical procedures linked to an encounter.
Vital_Signs.csv	3,612	Vital signs (HR/RR/SBP/DBP/Temp/SpO2) — main volumetric table, equivalent to Sensor_Reading on the aerospace side.
Lab_Result.csv	122	Lab results linked to an encounter.
Medication.csv	60	Medication prescriptions/administrations.
Allergy.csv	12	Allergies reported per patient.
Immunization.csv	20	Immunizations per patient.
Billing_Claim.csv	18	Billing claims linked to procedures.
Death.csv	1	Deaths occurring during an encounter (subset of Encounter).

03 · RELIABILITY

Data Quality

Realistic quality defects (missing data, duplicates, coding errors, impossible values, etc.) are injected into this sample. Detailed rates and ground-truth (label) files are provided only in the commercial version.

- INCLUDED ONLY IN THE COMMERCIAL VERSION
- ✓

Ground-truth (label) files to distinguish real signal from injected anomaly
- ✓

Full column-by-column documentation
- ✓

Volumes up to 10M+ Vital_Signs rows

Dataset entirely synthetic, algorithmically generated. No real patient data was used at any stage of its creation.
